GRACE

**EARLY
CHILDHOOD
CENTER**

ABOVE & BEYOND

**Where LIFE-LONG
LEARNING
BEGINS**

Deciding the right school

for your child is one of the most important decisions a parent/and or guardian will have to make. At Grace Early Childhood Center you will find a secure, loving, accepting environment. Our young students are encouraged to be creative, independent thinkers and enthusiastic learners.

We emphasize

**self-confidence,
independence
and initiative**

while encouraging our young students to solve problems, experiment with materials and build healthy social relationships.

Our curriculum provides a combination of constructive play and discovery that is crucial to the healthy development of a young mind, body and spirit.

Our development and learning atmosphere is a place where children explore, discover and learn.
