### WHERE LIFE-LONG LEARNING BEGINS

Learning Programs for children age two through kindergarten  
Above & Beyond Full Time Care 6 weeks and up  
Above & Beyond Before & Aftercare Program

We emphasize developing self-confidence, independence and initiative while encouraging our young students to resolve problems, experiment with materials and build healthy social relationships. Enriched programs include art, music, computer, Spanish, French, American Sign Language and reading and writing readiness. Smart Boards are in each classroom. At Grace, we recognize individuality and strive to enhance each student's unique abilities. Outdoor free play and indoor gym class contribute to developing the physical growth of each student.

Our programs include guest speakers, specialty programs and field trips. An experienced faculty and staff guide each child through the learning process.
